

# NOTICE OF PUBLIC INFORMATION CENTRE

## Milverton Water Supply System Class Environmental Assessment

---

The Township of Perth East is conducting a Municipal Class Environmental Assessment (Class EA) study to improve water quality for the Milverton Water Supply System. The study was initiated to determine the most cost effective and environmentally sound means of providing water to the Community of Milverton that meets provincial and federal water quality standards and objectives. The project is being conducted as a **Schedule B** undertaking according to the **Municipal Class Environmental Assessment (Class EA)** process for the Municipal Water and Wastewater Projects (Municipal Engineer's Association, June 2007).

The Public Information Centre (PIC) will be an informal drop-in centre with displays to present background information on the study and an evaluation of alternatives being considered and describe the recommended alternative. This PIC will provide an opportunity for interested stakeholders to meet with representatives from the Township and the project's consultant to answer any questions and to discuss the issues related to the project.

You are encouraged to attend the PIC to be held at the following location:

**Date: June 25, 2009**  
**Time: 6:30 p.m. to 8:30 p.m.**  
**Location: Perth East Recreation Complex (PERC)**  
**40 Temperance Street**  
**Milverton, ON N0K 1M0**

Written comments are welcome and will be received until July 10, 2009 at either addresses listed below. Comments received through the course of the study will be considered in finalizing the recommended water supply solution as well as for the planning and design of the project. With the exception of personal information, all comments will be part of public record.

If you wish to comment on the project or would like additional information please contact:

Mr. Wes Kuepfer
